

# Dripping

## Whalehammer

Find me, want to want  
Never what you see  
Calling, calling, the depth becomes  
Grab a hold of my face, so numb Soar far fly away  
I'm breaking through to you  
Soar far fly away  
I'm breaking through to you Touch you, feel the cold  
Friendships grow so old  
Difference, difference, never to know  
Clearing my mind as I go Soar far fly away  
I'm breaking through to you  
Soar far fly away  
I'm breaking through to you To you  
Breaking through  
Breaking through  
Breaking through  
To you, to you Breaking through to you  
Breaking through  
Breaking through You take away my mind  
I'll take away your pride Soar far fly away  
I'm breaking through to you  
Soar far fly away  
I'm breaking through to you I'm breaking through to you
