

Another Set of Issues

OK Go

It all seemed so perfect
It all seemed like everything's right
It all seemed so perfect
It all seemed so fine until it was not
So keep your head down,
Keep your hands where I can see them
So keep your head down,
Keep your hands where I can see them now
This will all be over soon
This will all be over soon
Now I know you've got,
This whole other set of issues here
But I can't let you leave that way
But I can't let you
But I can't let you
But I can't let you leave that way
But I can't let you
But I can't let you leave
So keep your head down,
Keep your hands where I can see them
So keep your head down,
Keep your hands where I can see them now
This will all be over soon
This will all be over soon
It all seemed so perfect
It all seemed like everything's right
But I won't let you leave that way
But I won't let you
But I won't let you
But I won't let you leave that way
But I won't let you
But I won't let you leave
So keep your head down,
Keep your hands where I can see them
So keep your head down,
Keep your hands where I can see them now
This will all be over soon
This will all be over soon
No I can't let you leave that way
So keep your head down,
Keep your hands where I can see them
No I can't let you
No I can't let you
So keep your head down,
Keep your hands where I can see them now

No I can't let you
This will all be over soon
No I can't let you
This will all be over soon
