Jawbox

What you already know
Should be more than enough
To cut this two-bit show
Down with the dust Target wires and the seams
Induce a rush of disbelieving
Lies that aren't your own Spoiler, spoiler
Come just to turn it over
Spoiler, spoiler
If you could kill it slower Working the wrecking ball
Maybe you feel less small
Religion for the mean
'Cause disbelief... Suspended for the sake of nothing
More than empty insides humming
Is sending you to sleep Spoiler, spoiler
Come just to turn it over
Spoiler, spoiler
If you could kill it slower Ah, vindication isn't what it used to be
Vindication
Isn't what it used to be Spoiler, spoiler
Come just to turn it over
Spoiler, spoiler
If you could kill it slower
