Let It Go

Luba

Too many doubts
Too much fear
Too much danger
When society constricts
Our human natureLive by the rules
Live by the laws
Live by commandments
Notions preconceived
Can lead to utter madnessLet it go, let it go
Let it free your body
Let it move your soul
We are made, we are not bornLearn to convert
Learn to assert
Learn to abandon
Ideologies and
Disciplines at randomLay down the laws
Lay down the rules
Lay down commandments
Lift the sanctions
That restrict this woman's madnessLet it go, let it go
Let it free your body
Let it move your soul
We are made, we are not bornUniformity
Conventionality
Is the bane of our existence
Keeps us safely at a distanceNonconformity
Unconventionality
Is to dare to be
Let your hair down, can't you seeLet it go, let it go
Let it free your body
Let it move your soul
We are made, we are not born
