

# War of Hearts

## Ruelle

Come to me  
In the night hours  
I will wait for you  
And I can't sleep  
Cause thoughts devour  
Thoughts of you consume

I can't help but love you  
Even though I try not to  
I can't help but want you  
I know that I'd die without you

Stay with me a little longer  
I will wait for you  
Shadows creep  
And want grows stronger  
Deeper than the truth

I can't help but love you  
Even though I try not to  
I can't help but want you  
I know that I'd die without you

I can't help but be wrong in the dark  
Cause I can't overcome in this war of hearts  
I can't help but want oceans to part  
Cause I can't overcome in this war of hearts

I can't help but love you  
Even though I try not to  
I can't help but want you  
I know that I'd die without you

I can't help but be wrong in the dark  
Cause I can't overcome in this war of hearts  
I can't help but want oceans to part  
Cause I can't overcome in this war of hearts
