

Brightly

Jacco Gardner

All the colours on the outside
have been changing
While I travel through the shadows,
And I'm wondering
Have you heard about the demons?
Turning green into grey
While we're waiting for the future
to be here to stay
In the beautiful light
find the darkness, it hides
Shining brightly it seems
while it's cold in my dreams
In the beautiful light
find the darkness, it hides
Shining brightly it seems
while it's cold in my dreams
Every day I've been walking down the path of the unknown
Let's be careful what you wish for
when you find who is alone
Now I have to slay the dragon
coming far through its lair
Without knowing if it's there
we'll bring joy on his flair
In the beautiful light
find the darkness, it hides
Shining brightly it seems
while it's cold in my dreams
In the beautiful light
find the darkness, it hides
Shining brightly it seems
while it's cold in my dreams
