

# Ain't Killed Me Yet

[Eric Church](#)

Advisory - the following lyrics contain explicit language:

Workin' all this overtime is good at keepin' me occupied  
Hell with the stress  
It ain't killed me yet Doctor says I gotta quit  
Get on the wagon and off of them damn cigarettes  
But they ain't killed me yet Doc you probably wonder why I don't care  
Why I don't change, why I ain't scared 'Cause I thought her leavin'  
Would stop my heart from beatin'  
And gettin' over her would be my death It hurts every night when she dances through my mind  
I still feel the sting of loneliness  
But it ain't killed me yet She turned this house into a tomb  
Ghosts rattle in every room, they're doin' their best  
But they ain't killed me yet So I lean on the bottle more every night  
I'm probably past the point where I should give it a rest  
But it ain't killed me yet No I ain't sayin' I'll never die  
But till I do, I'm on borrowed time 'Cause I thought her leavin'  
Would stop my heart from beatin'  
And gettin' over her would be my death It hurts every night when she dances through my mind  
I still feel the sting of loneliness  
But it ain't killed me yet, it ain't killed me yet It hurts every night when she dances through my mind  
I still feel the sting of loneliness  
But it ain't killed me yet
