Chasing Shadows

Stratovarius

I have been sailing across the oceans
Flying across the blue sky
Without never finding the answer
The answer to question whyJust when you think you reach it, it's goneChasing shadows, chasing shadows
Chasing shadows, all your life
You're chasing shadows, chasing shadows
Chasing shadows, all your lifeHarder you try to fix things in your life
Faster you know it's in vain
Searching for loving from strangest places
Nothing is left but the painJust when you think you reach it, it's goneChasing shadows, chasing shadows
Chasing shadows, all your life
You're chasing shadows, chasing shadows
Chasing shadows, all your lifeChasing shadows, chasing shadows
Chasing shadows, all your life
You're chasing shadows, chasing shadows
Chasing shadows, all your lifeYou're chasing shadows, chasing shadows
Chasing shadows, all your life
You're chasing shadows, chasing shadows
Chasing shadows, all your life
