

Chasing Shadows

Stratovarius

I have been sailing across the oceans
Flying across the blue sky
Without never finding the answer
The answer to question why Just when you think you reach it, it's gone Chasing shadows, chasing shadows
Chasing shadows, all your life
You're chasing shadows, chasing shadows
Chasing shadows, all your life Harder you try to fix things in your life
Faster you know it's in vain
Searching for loving from strangest places
Nothing is left but the pain Just when you think you reach it, it's gone Chasing shadows, chasing shadows
Chasing shadows, all your life
You're chasing shadows, chasing shadows
Chasing shadows, all your life Chasing shadows, chasing shadows
Chasing shadows, all your life
You're chasing shadows, chasing shadows
Chasing shadows, all your life You're chasing shadows, chasing shadows
Chasing shadows, all your life
You're chasing shadows, chasing shadows
Chasing shadows, all your life
