Fireworks

Plain White T's

Well, I don't mind waitin' 'til you're comfortable with me
But what's it gonna take
To prove that I'm for real?'Cause you know how I feel about you
You know I can't live without you
I just wanna stay and make it real'Cause I know, you know
It can't get much better
Fireworks flyin' whenever we're together
I know, you know, that I know you love meWell, I've made up my mind
That I want you to be the one
The one I wanna be with when I'm ninety-two'Cause I know, you know
It can't get much better
Fireworks flyin' whenever we're together
I know, you know, that I know you love me'Cause I know, you know
It can't get much better
Fireworks flyin' whenever we're together
I know, you know, that I know you love meI just wanna feel you tonight
Makin' sure the moment's just right
I could die just starin' in your eyesI just wanna feel your heartbeat
Hold you even closer to me
Fall asleep with you right by my sideWe'll see fireworks tonight
We'll see fireworks tonightI've waited all my life
To make this perfect every way
And sharin' it with you
Would make it even more than that'Cause I know, you know
It can't get much better
Fireworks flyin' whenever we're together
I know, you know that I know you love me'Cause I know, you know
It can't get much better
Fireworks flyin' whenever we're together
I know, you know that I know you love meI know, you know
It can't get much better
Fireworks flyin' whenever we're together
I know, you know that I know you love meI know, you know
It can't get much better
Fireworks flyin' whenever we're together
I know, you know that I know you love meI know, you know
It can't get much better
Fireworks flyin' whenever we're together
I know, you know that I know you love meI know, you know

It can't get much better
Fireworks flyin' whenever we're together
I know, you know that I know you love me
We'll see fireworks tonight
