

# H.i.v.e.

## Nonpoint

Go

It's time to do a quick rewind  
To find another line and bring it back  
To get the juices flowing  
You, you found infection with injection  
Tell me lies  
Time is moving faster  
You were the last one to reach inside  
And grab my soul and kill it  
Now you realize what you've done  
Now you realize what you've done  
Your time has come

Go

Pick it up, pick it up, pick it up  
Tell me what got this funky fail into  
Gonna feel that in your head and explode  
Change your home  
Bring yourself running for the sweet hive  
Heart beats, pain inside  
You wonder why you can't breathe  
You're about to see your maker's eyes  
That breath you took was terminal ill  
Now you realize what you've done  
Now you realize what you've done  
Your time has come

Go

Pick it up, pick it up, pick it up  
Tell me what got this funky fail into  
Gonna feel that in your head and explode  
Change your home  
Bring yourself running for the sweet hive  
I got this funky fail into  
Gonna feel that in your head and explode  
Change your home  
Get yourself running for the sweet hive  
Here we go
