Tienanman Squared

(Hed) P. E.

Feels so far way
But are we getting closer
Or does it even matter
We're running out of time
I cant find the words to say
I feel its almost over
Or does it even matter
We're running out of time
I wont engage in conversation
I dont want your company
I'm not a friend of your orginazation
I recognize my enemy
It all started in the year 2025
The working men put their differences aside
Crips and bloods, aligned with the white pride
Took our country back from the inside
Meet me in Tienanman square
The whole wide world will be there waiting
Meet me in Tienanman square tonight
This time we'll
fight for freedom
fight for justice
fight for the children
The photon bell was rendered ineffectual
The earth remained under quarantine
The cyber punks took hold of the internet
The coup'd'etat was now in full swing
Meet me in Tienanman square
The whole wide world will be there waiting

Meet me in Tiananman square
If they wont let us in, we'll break in
Meet me - meet me - meet me
This is the sound of
revolution - the resistance - liberation
This time we'll
fight for justice
fight for liberty
fight for the children

Now i shut down the congress
Close down the white house
Lets prepare for the mass execution
The earth was not doomed
Only held prisoner
Now she is open to psychic evolution
The CEOs would not be taken quietly
The politicians were lined up and strung
So many homies we're lost on the battlefield
Sacrificed so that the world could be won (one)
FREEDOM
Fight
Meet me in Tienanman square
The whole wide world will be there waiting
Meet me in Tiananman square
If they wont let us in, we'll break in
Meet me - meet me - meet me
This is the sound of
revolution - the resistance - liberation
This time we'll
fight for justice
fight for liberty
fight for the children
