My Fair One

Edison Glass

Awake from winters rest
Why cleave unto the dust?
From lower loves, desires
Pursuits and fearsDont wait for passing moments
Im calling for you, now
Im calling for you to comeRise up my love
(Rise up)
My fair one, come awayRise up my love
(My love)
My fair one, come awayKindle sacred flames
Of love within my heart
My love, I count you fair
This argument to riseDont wait for passing moments
Im calling for you, now
Im calling for you to comeRise up my love
(Rise up)
My fair one, come awayRise up my love
(My love)
My fair one, come awayRise up my love
My fair one, come awayRise up my love
(Rise up)
My fair one, come awayMy fair one, come away
