

# My Fair One

## Edison Glass

Awake from winters rest  
Why cleave unto the dust?  
From lower loves, desires  
Pursuits and fearsDont wait for passing moments  
    Im calling for you, now  
Im calling for you to comeRise up my love  
    (Rise up)  
My fair one, come awayRise up my love  
    (My love)  
My fair one, come awayKindle sacred flames  
    Of love within my heart  
    My love, I count you fair  
This argument to riseDont wait for passing moments  
    Im calling for you, now  
Im calling for you to comeRise up my love  
    (Rise up)  
My fair one, come awayRise up my love  
    (My love)  
My fair one, come awayRise up my love  
My fair one, come awayRise up my love  
    (Rise up)  
My fair one, come awayMy fair one, come away
