

# How I Met Your Mother

## Taking Back Sunday

Everything was all electric, we were perfectly in tune  
And we stayed up until morning, more like late afternoon  
You read me like some book that you remembered from school  
Like there'd be some kind of test you already knew the answers to  
Lets not grow old or act our age  
Keep singing songs like nothings changed  
Closed fist you hit me square in the jaw  
Said I'm a women and I know what I want  
(We're alright)  
We're alright  
(We're alright)  
Alright  
We're gonna live forever joined securely at the hip  
Then we shall rest inside each other like the world is gonna end  
A lightening bolt, that purple dress  
A simple turn, a second chance  
We shook, we spun like it had never been done  
We shook, we spun like it had never been done  
Lets not grow old or act our age  
Keep singing songs like nothings changed  
Closed fist you hit me square in the jaw  
Said I'm a women and I know what I want  
(We're alright)  
We're alright  
(We're alright)  
Alright  
Let's not grow old or act our age  
Keep singing songs like nothings changed  
(We shook, we spun like it had never been done)  
Lets not grow old or act our age  
(We shook, we spun like it had never been done)  
Keep singing songs like nothings changed  
(We shook, we spun like it had never been done)  
Closed fist you hit me square in the jaw  
Said I'm a women and I know what I want  
(We're alright)  
We're alright  
(We're alright)  
Alright  
Let's not grow old or act our age  
Keep singing songs like nothings changed  
(We're alright)
