

# Stay

## Donkeyboy

I'm gettin' older now  
Even though I feel the same  
The system's working out  
There's no one I can blame  
I'm gettin' older now  
Tell me that it's not too late  
The final chance is gone  
In vain Stay now  
Heaven only knows if you can save me  
But time is all we have  
Stay now  
Heaven only knows the path but maybe  
This song is all we have You're gettin' older now  
I can only sleep when you're sane  
The system's wearing out  
There's no one I can blame  
You're gettin' older now  
Tell me that it's not too late  
The final chance is gone  
In vain Stay now  
Heaven only knows if you can save me  
But time is all we have  
Stay now  
Heaven only knows the path but maybe  
This song is all we have I'm gettin' older now (2x Im gettin' older now)  
The system's working out (2x The system's working out)  
I'm gettin' older now (2x Im gettin' older now)  
The final chance is gone  
Tell me that it's not too late Stay now  
Heaven only knows if you can save me  
But time is all we have  
Stay now  
Heaven only knows the path but maybe  
This song is all we have I'm gettin' older now (2x Im gettin' older now)  
The system's working out  
Tell me that it's not too late
