

Woody Boogie

Baltimora

Every time she looks at me
I can feel electric heat
All right, all right
Shiny sparkle in her eyes
As she's moving in disguise
All right, all night I am losing my control
Maybe time to take a hold
Tonight, all right
Body spinning all around
Don't know if I'm up or down
I'm on fire Woody, Woody Boogie
Woody, Woody Boogie
Woody, get down tonight
Woody, get down tonight
We're on the go, Woody People jumping in the air
Going crazy everywhere
All right, all right
I keep staring at her face
When the clock begins to race
All night, all night
