

# Over The Treetops

## A-ha

Hey, beautiful farm on the top of the hill  
Whenever I pass by, I'm thinking I will  
Find someone like you, goodbye avenue  
And then I'll be yearning for this too

Over the treetops fly

Birds in the sky

Over the treetops high

High in the sky

Stop calling her restless, she moves in the sun

Gets out of the bed past noon, closer to one

I follow her mind, I follow her blind

She leaves and I'm two steps behind

Over the treetops fly

Birds in the sky

Over the treetops high

High in the sky

A trip is a fall

To fall is to trip

A trip is a fall

To fall is to trip

A trip is a fall

To fall is to trip

A trip is a fall

Trip is to fall

She changes how she feels about things, that's okay

It works for me, I think I like it that way

Nothing is true, something is false

Address the child as a whole

Over the treetops fly

Birds in the sky

Over the treetops high

High in the sky

Over the treetops fly

Birds in the sky

Over the treetops high

High in the sky

Over the treetops fly

Birds in the sky

Over the treetops high

High in the sky
