

# Shine (Acoustic Version) [feat. Sam Palladio]

## Nashville Cast

I know you're tired  
I see your eyes cry again  
I see you fall  
And I will fall down with you  
Hold onShine like the rivers that send you  
Baby we'll run so far away from here  
I've loved you so long that I can hardly remember  
What it was like without you hereYour heart breaks down  
When no one is around to see, oh no  
Life let you down that don't seem fair at all to me my loveShine like the rivers that send you  
Baby we'll run so far away from here  
I've loved you so long that i can hardly remember  
What it was like without you here\*Guitar Break\*Shine like the rivers that send you  
Baby we'll run so far away from here  
I've loved you so long that i can hardly remember  
What it was like without you here  
What it was like without you here
