You Used To Love Me

[Faith Evans](#)

I remember the way
You used to love me
I remember the days
You used to love meYou don't appreciate the time
I put into this love affair of ours, baby
I couldn't let you walk around
Thinking it's alright to let me downI remember the way
You used to love me
Baby, I remember the way
I remember the days
You used to love meI gave you all my precious love
And anything you wanted from me
You didn't hear me calling out
Calling for your warm affection after all this timeYou can't deny what I'm feeling is real
And I stood around, stood by your side
Went through all the hurt and pain
And you turned to walked awayI remember the way
You used to love me, baby
I remember the days
You used to love meCan't give up on the way you used to
Give it to me, give it to me
What a feeling it's for realI remember the way
You used to love me, yeah, yeah, yeah
I remember the days
You used to love me, yeah, yeah, yeahYou didn't hear me calling out
And that's not what love's about, no, no
I remember you used to love meYou used to love me every day
Now your love has gone away
I remember, I rememberI remember the way
You used to love me
I remember the days
You used to love meI remember the way
You used to love me
I remember the days
You used to love meI remember the way
You used to love me
I remember the days
You used to love me
