Where We Sleep Is Where We Dream

Hotel Books

I know I can't take anything with me
But I hope I can hold onto my memoriesThere are shapes in the patterns on the wall
I don't see people any more at all
My biggest weakness has become focussing on my weaknesses
Wisdom is a door with a key that's been lost in brokenness
Fractured the skeletons of who we were
To build hopefulnessI'm begging on my knees
(Please just let me breathe)
The doctor needs to sleep
(Please just let me breathe)
God if you're listening
I'll find my peace with what I sing
Please just let me breathe
Hope is a window with a small breeze
Oxygen bleeding under walls of release
Love is growing together until we know enough
To not want to know each other at all
Where one is void, another is fulfilling
Hate and hope hidden in our humble beginningsThis has been the deathbed of who I wasI'm begging on my knees
(Please just let me breathe)
The doctor needs to sleep
(Please just let me breathe)
God if you're listening
I'll find my peace with what I sing
Please just let me breatheI let my mistakes define me
I let my closest friends refine me
I let my intake complete me
I let my own deathbed defeat me
I let my mistakes define me
I let my closest friends refine me
I let my intake complete me
I let my own deathbed defeat mePlease just let me breatheI let my mistakes define me
(Please just let me breathe)
I let my closest friends refine me
(Please just let me breathe)
I let my intake complete me
(Please just set me free)
I let my own deathbed defeat me

Please just set me free
