

# The Way It's Gonna Be (From "Ruby & The Rockits")

[Alexa Vega](#)

No one said it would be easy  
You once could call this place your own  
It took a single day,  
It seems like your whole life has changed around  
But one thing I know So oh,  
Nobody can take your life away  
No,  
No one is standing in your place  
It's your time,  
You're where the world can see  
The way it's gonna be Maybe things can turn for better  
Maybe your dreams will come true  
The future seems unclear,  
But if you let me hold the mirror  
I'll shine back the best of you So oh,  
Nobody can take your life away  
No,  
No one is standing in your place  
It's your time,  
You're where the world can see  
The way it's gonna be Try to see the world getting bigger  
We both have our roads and much farther to go  
But it won't have to feel so hard when you're not alone  
(Nobody can take your life away) (Nobody can take your life away) Oh,  
Nobody can take your life away  
No,  
No one is standing in your place  
It's your time,  
You're where the world can see  
The way it's gonna be  
Way it's gonna be
