

# Mastodon

## Charlie Parr

Well my daddy left home at 14 years  
gone to find his way  
he left again when I was 25  
this time going to stay.

I don't feel welcome around here  
I don't feel at home  
this old world has brought me low  
made me live all alone.

Well I have walked for miles and years  
'til I was lost alone  
like a mastodon buried in the snow  
couldn't find his way home.

I don't feel welcome around here  
I don't feel at home  
this old world has brought me low  
made me live all alone.

Well now that I'm older and look like all the rest  
and I'm easy to be ignored  
I want it free on this side of the fence  
that separates the rich from the poor.

I don't feel welcome around here  
I don't feel at home  
this old world has brought me low  
made me live all alone.

Well when I die don't you bury me at all  
no coffin no stone  
you can leave me like a mastodon in the snow  
that's on his way home.

I don't feel welcome around here  
I don't feel at home  
this old world has brought me low  
made me live all alone.
