

# Packs of Three

## Arab Strap

It was the biggest ever cock you'd ever seen  
But you've no idea where that cock has been  
You said you were careful you never were with me  
I heard you did it four times and Jonnies  
Come in packs of threeShe was the best shag I'd ever had  
That doesn't mean I'm saying, bed wise, you were bad  
I think you were working, we got a hotel  
We didn't have anything but I thought I might as wellI never told the rest  
I was drunk and I told you  
I was thinking about a test  
You know I just said it for effect  
Then you laughed and said I'd fuck  
Anything in a skirt once I'm erectAnd she's a famous harlot in this town  
I know enough to, but still I couldn't turn her down  
He said I'm an asshole, what was I thinking?  
It's far too easy to blame it on the drinking
