

I Was Walkin'

Ringo Starr

I was walkin', I was talkin'
I was talkin' to myself last night
I was dancin', yeah I was dancin'
I was dancin' by myself last night My occupation is syncopation
And when I hit 'em well it saves my life
I've been a sinner, I've been a winner
My life's better than a roll of the dice
Everybody's movin' everybody's groovin'
Goin' through the motions 'cause we don't know what we're doin'
Look into the mirror - you're the solution
Inner peace and love is the only revolution
I look in a mirror, I look in a mirror
I look in a mirror and I'm looking alright I never worry, I never hurry
I'm just livin' and I'm doin' alright
Everybody's movin' everybody's groovin'
Having so much fun Cause we're happy what we're doin'
Look into the mirror - you're the solution
Inner peace and love is the only revolution I was dreamin', I was talkin'
I was talkin' in my sleep last night
Everybody's movin' everybody's groovin'
Having so much fun 'Cause we're happy what we're doin'
Look into the mirror - you're the solution
Inner peace and love is the only revolution I was lookin', I was cookin'
I was cookin' by myself last night
I was dancin', I was dancin'
I was dancin' by myself last night
