Easy Now My Dear

Ronan Keating

It always hurts to say
It never goes away
I'm in a mess for weeks
I cannot eat or speak
But you never see me cry
Cos you're upon the other side
It no need to know how bad
It's better off like that
[Chorus]But now that your here
And there's noone but us
Take the air and breath that in
Don't say a word just pretend that the world
Is Easy now my dear
Wish I had a .... car
I throw at down so hard
I wouldn't let you go
But I've looked every way I done
I hear you on the line
Telling me all is fine
That's all I have those words
Everyone I have heard

[Chorus]But now that your here
And there's noone but us
Take the air and breath that in
Don't say a word just pretend that the world
Is Easy now
How many times ....
Moment in circles up then we're down
My heart doesn't know why it hurts when you leave
But perfectly beats when you're here
Easy now
It always hurts to say
It never goes away
I'm in a mess for weeks
I cannot eat or speak
[Chorus]But now that your here
And there's noone but us
Take the air and breath that in

Don't say a word just pretend that the world
Is Easy now easy now easy now
My dear
