

Fistful of Mercy

Fistful of Mercy

You say you feel life, down
Always down against the grave, you are
You say it's real life, down
Always down against the grave, we are Maybe it's soft inside of hard
Fistful of mercy
Maybe it comes from where we are
The land of the thirsty, hungry lion heart You say you feel life, down
Always down against the grave, we are
You say it's real life, down
Always down against the grave, you are Maybe it's soft inside of hard
Fistful of mercy
Maybe it comes from where we are
Land of the thirsty Maybe it's soft inside of hard
Fistful of mercy
Maybe it comes from where we are
The land of the thirsty, the hungry We have a way of saving our own lives
We have a way of saving our own lives
We have a way of saving our own lives
Our own lives, our own lives, our own lives, our own lives Maybe it's soft inside of hard
Fistful of mercy
Maybe it comes from where we are
Land of the thirsty, the hungry We have a way of saving our own lives
We have a way of saving our own lives
We have a way of saving our own lives
Our own lives, our own lives, our own lives, our own lives
Our own lives, our own lives, our own lives, our own lives
Our own lives
