

# Baby

Anita Baker

This heart of mine seldom lies you see  
It's often said you don't care for me no more.  
You took so long, how could you lead me on  
Left me wondering where and how we went wrong. Chorus Come on baby  
make it all right  
my baby  
say it's alright  
would you baby  
it will be alright  
if I could only see you  
Won't you please do this for me Heart of mine please just let him go  
Always knew you'd leave and many times I told you so  
Yesterday it was when you walked out my door  
hopes and dreams of mine lay scattered on my floor Chorus holding on to your memory is what I've done  
Baby see what I've done, Baby see what I've done  
Oh yeah holding on to my pillow is all I've got  
yeah  
and the power of your thunder  
belongs to someone new  
is it any wonder i cry the whole night through  
How we ever made it is a mystery to me  
fire and water were never meant to be Chorus
