Clones (We're All) (Remastered Version)

Alice Cooper

I'm a clone
I know it and I'm fine
I'm one and more are on the way
I'm two, doctor
Three's on the line
He'll take incubation another dayI'm all alone, so are we all
We're all clones
All are one and one are all
All are one and one are all
We destroyed the government
We're destroying time
No more problems on the wayI'm through doctor
We don't need your kind
The other ones
Ugly ones
Stupid boys
Wrong onesI'm all alone, so are we all
We're all clones
All are one and one are all
All are one and one are all
We destroyed the government
We're destroying time
No more problems on the waySix is having problems
Adjusting to his clone status
Have to put him on a shelf
(Please don't put me on the shelf)
All day long we hear him crying so loud
I just want to be myself
I just want to be myself
I just want to be myself
Be myself
Be myselfI'm all alone, so are we all
We destroyed the government
We're destroyed time
No more problems on the wayI'm through doctor
We don't need your kind
The other ones
Ugly ones
Stupid boys

Wrong onesI'm all alone, so are we all
We're all clones
All are one and one are all
All are one and one are all
We destroyed the government
We're destroying time
No more problems on the wayI'm all alone, so are we all
We're all clones
All are one and one are all
All are one and one are all
