

Surrounded By You

The New Velvet

Some other time maybe we could be together
Some other place baby we could have our strut
Maybe we'll win on every shooting star wish we made
Life pulled us apart I know we had
Something really special
Want you to know
That I don't
Want to ever let go As long as I breathe
I'll be waiting for you
Get you outta my head
You're all that's coming through
Surrounded by voices that remind me of how
Things were used to be
When I was surrounded by you I thought a lie to figure out a way that we could
Forget about life and just use love
We played and we fought
We learned that it's just not that simple
Even though we brought
The best we could I know we had
Something really special
Want you to know
That I don't
Want to ever let go As long as I breathe
I'll be waiting for you
Get you outta my head
You're all that's coming through
Surrounded by voices that remind me of how
Things were used to be
When I was surrounded by you I see us together
Years and years from now
Like it always should've been
Like it always should've been As long as I breathe
I'll be waiting for you (I'll be waiting for you)
Get you outta my head
You're all that's coming through (Get you outta my head)
Surrounded by voices that remind me of how
Things were used to be
When I was surrounded by you As long as I breathe
I'll be waiting for you

Get you outta my head
You're all that's coming through
Surrounded by voices that remind me of how
Things were used to be
When I was surrounded by you
