Angel Rays

Sissel

The time we lost, you held your cross
No tears did your eyes tell
The time you lost, no matter what the cost
Your strength it saw you throughBut time will heal what your heart conceals
And this I know too well
The road you've known that takes you home
Is waiting strong and trueFor this child of mine
Shell forever shine
Angel rays
Watch over youBut time will heal what your heart conceals
And this I know too well
The road you've known that takes you home
Is waiting strong and trueFor this child of mine
Shell forever shine
Angel rays
Watch over youFor this child of mine
Shell forever shine
Angel rays
Watch over youAngel rays
Angel rays
Angel rays
Angel rays
Watch over you
