

# Angel Rays

## Sissel

The time we lost, you held your cross  
No tears did your eyes tell  
The time you lost, no matter what the cost  
Your strength it saw you throughBut time will heal what your heart conceals  
And this I know too well  
The road you've known that takes you home  
Is waiting strong and trueFor this child of mine  
Shell forever shine  
Angel rays  
Watch over youBut time will heal what your heart conceals  
And this I know too well  
The road you've known that takes you home  
Is waiting strong and trueFor this child of mine  
Shell forever shine  
Angel rays  
Watch over youFor this child of mine  
Shell forever shine  
Angel rays  
Watch over youAngel rays  
Angel rays  
Angel rays  
Angel rays  
Watch over you
