Love Left Town

Michael Nitro

I canâ€™t shake those memories
You and me and how it used to be
But somehow somewhere somebody changed
And love left town with no one to blame
Rainy night and darling Iâ€™m missing you
I canâ€™t help wondering if you miss me too
Maybe some things just arenâ€™t meant to be
But loving you baby came so easily
Baby where did our love go
I thought weâ€™d stay together
A love like that again Iâ€™ll never know
And Iâ€™ll feel this way for ever and ever
Cause I canâ€™t shake those memories
You and me and how it used to be
But somehow somewhere somebody changed
And love left town with no one to blame
I canâ€™t shake those memories
You and me and how it used to be
But somehow somewhere somebody changed
And love left town with no one to blame
Love left town with no one to blame
Love left town
