

Aggression

Ignite

the bone is broken
the vein is cut
the entrails of people
torn to shreds
the world watches
no country gives a shit
no one a finger to lift
following orders
dismembering others
a disgusting bounty
destroy the whole country
the butcher of Bosnia
your worst enemy
starvation disease, death
a one way ticket out
hung from a cousins rope
no reason or time left for hope
a brother rapes another
brothers sister
you will see the day
the gods will repay you
aggression
and so it goes
the neds up to you
to stop the killing of thoses
innocent onces
stop racism
stop fascism
stop hatred
the bone is broken
the vein is cut
the entrails of people
torn to shreds
the rold watches
no one gives a shit
no one a finger to lift
