Go Slow

Benita Hill

Go slow.
So that I can hear everything you're sayin.
Now I know you're goin.
You just threw this away.
You know i ain't gonna take it.
Go Slow.
You know you ain't gonna make it.
I know.
I can't make you stay.
But I'll be hurtin from the heat.
Running from the heat.Well, well, was it something that I said.
I know that it was something I said.
From your heat now.
I'm going crazy trying hard to forget.
You know I'm trying to hard forget.
From your heat now.
Oh I just wanna go back hold on to the way that I was
Cuz you took away all my young life.
And I hate who I've become from your heat now.
From your heat it's comin, comin.I know.
I'm givin in and believin every lie.
For now, the moon, it's night.
I turn off the light.
But you should put the foundation.
Go slow.
Now.
With your intimidation.
I know.
You turn away now I'll be hurt from the heat.
Heat.
Running from the Heat.Well, well, was it something that I said.
I know that it was something I said.
From your heat now.
I'm going crazy trying hard to forget.
You know I'm trying to hard forget.
From your heat now.
Oh I wanna go back hold on to the way that I was
cuz you took away all my young life.
And I hate who I've become from your heat now.

From your heat it's comin, comin.From the heat now.
From the heat now, now, now, now.Well, Well, was it something that I said.
I know that it was something I said.
From your heat now.
Well, I'm going crazy trying hard to forget.
You know I'm trying to hard forget.
From your heat now.
Oh I wanna go back hold on to the way that I was
cuz you took away all my young life.
And I hate who I've become from your heat now.Go back...
Go back...From your heat now.
I just wanna go back. Go back. Go back.Go back...
Go back...
