

Walking Into Battle With The Lord

Chumbawamba

A new crusade to the Holy Land
Walking into battle with the Lord
An army of men under my command
Walking into battle with the Lord
Fight the good fight here at home
Walking into battle with the Lord
Send those men to kingdom come
Walking into battle with the Lord

Take my aim with a higher will
Trust my Lord to hold me still
Say "amen" and shoot to kill
Walking into battle with the Lord
Walking into battle with the Lord

With open arms on Judgment Day
Walking into battle with the Lord
Teach the children how to pray
Walking into battle with the Lord
Faithful, blind, we all believe
Walking into battle with the Lord
I was taught by Adam but I blame it on Eve
Walking into battle with the Lord

All my words in kindness came
Your souls in mercy to reclaim
Cleanse this world of sin and shame
Walking into battle with the Lord
Walking into battle with the Lord

Holy Father, Mother Tongue
Walking into battle with the Lord
Manna from heaven, right from wrong
Walking into battle with the Lord
Take my place on the witness stand
Walking into battle with the Lord
Trigger fingers, praying hands
Walking into battle with the Lord

When two men meet on the field of war

They both ask "what are we fighting for?"
And haven't we heard it all before?
Walking into battle with the Lord [Repeat: x4]
