Youâ€™ve Done It Again, Virginia

The National

You had fun, but you couldn't get him out of the car
I guess mamma's boys only go so far
You went in and put a record on
To make it sound like someone was home
And thanked yourself for pouring yourself a drinkTry to figure out and laugh yourself to the showers
Burn yourself alive and join the monster squad
They say in this place you can reinvent yourselfWell you've done it again, Virginia
Made another masterpiece while I was dreaming
How does it feel to feel like you?
Brilliant sugar, brilliant sugar, brilliant sugar, turn overA cool, tall, drink of water
is all you ever wanted to be
And if you had another wish to wish
you'd be fun and movingBut you can't talk to people, right?
You can't tell a story
You're tall, long legged
and your heart's full of liquor
And me and everybody are just ice in a glassTry to figure out and laugh yourself to the showers
Burn yourself alive and join the monster squad
They say in this place you can reinvent yourselfWell you've done it again, Virginia
Made another masterpiece while I was dreaming
How does it feel to feel like you?
Brilliant sugar, brilliant sugar, brilliant sugar, turn over
