My Name Is Love

Amy Diamond

My name is love, I'm your announcer
You bring the heart, I'll bring the answers
I need a few good men and women on my teamMy name is love, your friendly partner
I'm on alert cause my work's getting harder
I need a few good people to rebuild my dream, you seeThese are uneasy times
Good friends are hard to find
In this life, that we live
Reach out and lend your help
Sit back, ask yourself
Without me, what are you
Tell me what's the world coming to
We've got a lot of work to do
We've got a lot of work to do(Woah woah woah oh oh yeah, yeah)My name is love, I'm here to tell you
The price of hate's getting way too familiar
We need to stop it now before it goes too farYou know my name, you know the mission
So don't delay cause I crave your assistance
We gotta go start mending all the broken hearts, woah, woah ohThese are uneasy times
Good friends are hard to find
In this life, that we live
Reach out and lend your help
Sit back, ask yourself
Without me, what are you
Tell me what's the world coming to
We've got a lot of work to do
We've got a lot of work to doMy name is love, I'm your announcer
You bring the heart, I'll bring the answers
I need a few good men and women on my team
