Back To Life

Outasight

I'll wave the white flag until you have surrendered
I'll raise up my hands and let go of my defenses
Giving to your demands, not knowing where we'll end up
Was down and out, and almost gone until you picked me upMy heart is barely beating in my chest
I'm blacking out and running out of breath
Please send some help for me, and lay me down to rest
I was down and out, and almost gone until you picked me up!Flat lining, so numb, I couldn't feel a thing
I felt like bad timing too young, maybe there's safe for me
I felt electric-chemical reaction to your touch, screaming
Woah oh oh you bring BACK TO LIFE
Screaming, Woah oh oh you bring BACK TO LIFEMy favorite nightmare, keep running, running, running
I couldn't fight back, not knowing what was coming
You seemed alive then, reviving my love from nothing
Was down and out, and almost gone until you picked me up!My heart is barely beating in my chest
I'm blacking out and running out of breath
Please send some help for me, and lay me down to rest
I was down and out, and almost gone until you picked me up!Flat lining, so numb, I couldn't feel a thing
I felt like bad timing too young, maybe there's safe for me
I felt electric-chemical reaction to your touch, screaming
Woah oh oh you bring BACK TO LIFE
Screaming, Woah oh oh you bring BACK TO LIFEI felt something wrong from the start,
Don't wait too long to fix my heart
I felt something strange in my veins
Electric touch, take over me!My heart is barely beating in my chest
I'm blacking out and running out of breath
Please send some help for me, and lay me down to rest
I was down and out, and almost gone until you picked me up!Flat lining, so numb, I couldn't feel a thing
I felt like bad timing too young, maybe there's safe for me
I felt electric-chemical reaction to your touch, screaming
Woah oh oh you bring BACK TO LIFE
Screaming, Woah oh oh you bring BACK TO LIFE
