

Getaway

Keith Sweat

Now baby, now baby, now baby, now, now, now
Let's get away, get away girl
Come on girl
Now baby, now baby, now baby, now, now, now
Let's get away, get away girl
Leaving the club on a Saturday night cause it's over
And I'm feeling really good
I see this girl walking beside me
Why you're crying you should be all good
You had a hard day at work
Your man left you hurt
You're better than falling away
So pack your bags in a sack
Take the first girl baby with me
Don't you laugh girl
You deserve something so much better in your life
Baby won't you fly with me
Making love at the sea shore
When the water hits the rocks you want some more
Girl ride with me, ride with me
You get away
You want to get away
Don't you want to get away
You want to get away
I know you want to get away
You get away
You want to get away
Don't you want to get away
You want to get away
I know you want to get away
