

# Lady

## Noe

You give a show for their applause  
Yeah everybody loves screaming out your name  
But hear me roar, and boy you'll know you name sounds better when it's whispered low  
Boy if you give up all the shame and the games, I'll show you how to love  
I'll show you how to lay me down  
The line between power and fair play, ill teach you how I romance Oh boy, sit yourself down in my seat  
I'll show you how it's done when a lady leads  
Give yourself up, my treat  
Babe ill teach you how to please When a lady leads Boy I don't fake it, still gotta earn it  
No, you can't bend my knees any time you please  
But if you work it, I'll make it worth it  
Just show me the respect I need None of them other boys consider me a lady  
With my clothes to the floor  
They feel me like a figurine  
But sex should never be a one way street  
Quit calling me names  
I'll make you love the pain. Oh boy, sit yourself down in my seat  
I'll show you how it's done when a lady leads  
Give yourself up, my treat  
Babe ill teach you how to please Oh boy, sit yourself down in my seat  
I'll show you how it's done when a lady leads  
Give yourself up, my treat  
Babe ill teach you how to please Watch me take control  
Let me be the one you adore  
And when I go down, you wanna go down with me Watch me take control  
Let me be the one you adore  
And when I go down, you wanna go down with me  
You wanna go down with me  
You wanna go down with me  
You gonna go down on me  
Down on me  
Down on me  
You gonna go down on me  
Down on me  
Down on me Oh boy, sit yourself down in my seat  
I'll show you how it's done when a lady leads  
Give yourself up, my treat  
Babe ill teach you how to please Oh boy, sit yourself down in my seat  
I'll show you how it's done when a lady leads

Give yourself up, my treat  
Babe ill teach you how to please
