## Last Tuesday

I was sitting there alone in my room watching the television screen  
And its so wrong, theres so much going on that I cant change a thing  
And it overwhelms and it makes me feel like an alien  
I need some time away, I need some time away from here  
So I looked deep, I looked deep inside my own mind  
and its only to find  
That I dont care, cause I'm sitting here and not there, yet I see its not fair
