A Simple Game Of Genius

Noel Gallagher

oh, cecilia, close your eyes and i will be with ya
i'm in the song that's rising over ya, close your eyes and drift away
just the two of us broke up all the rules they made for us
play a simple game of genius if you live to fight another day
dream of all of the love you made
it's there in your kaleidoscope eyes
all my life and all that i've ever had, lies waiting here
if you don't make up your mind, then how can i drift away
if you don't let me be your guide then how can i drift away (drift away)
times are dangerous, think the future's got it in for us
play a simple game of genius if you live to fight another day

dream of all of the love you made
it's there in your kaleidoscope eyes
all my life and all that i've ever had, lies waiting here for you
if you don't make up your mind, then how can i drift away
if you don't let me be your guide then how can i drift away (drift away)
dream of all of the love you made
it's there in your kaleidoscope eyes
all my life and all that i've ever had, lies waiting here
if you don't make up your mind then how can i drift away
if you don't let me be your guide then how can i drift away (drift away)
if you don't make up your mind then how can i live today
forever we walk in the light, you and i drift away (drift away)
we drift away (drift away)
