Blindly

Heroin

I don't (need) a (fucking) god to make me think that I am right
Because we are all so wrong.
Who the fuck wants to live forever anyways?
Yeah, sure we all worship something,
But making others feel wrong to feel right is shitty.
We are violent creatures and not half as smart as we say we are.
Making weapons all the time to kill each other off.
Like bacteria in a petri dish; we all live and die.
