

# Touch and Go Heart

[Kitty Wells](#)

Touch and go that's how your love is first you're mine and then we're apart  
Even though I know what your game is I still cling to your touch and go heart  
You only want my company when you are feeling blue  
Just when I think you care a little there's someone new  
Though I know how hopeless my chance is I'm just a slave for your touch and go heart  
[ steel - fiddle ]  
Touch and go that's how...
