Happy Anniversary

Scorpios

[Verse 1]
Since you came along
My life has changed
I'm no longer insecure
You took away my pain
You showed me love
Like I never knew before
And though nothing's perfect
Another year with you's been worth it
I thank god for you and me

[Chorus]
I believe in happily ever after
There's no joy like the sound of your laughter
It seems that god has send me an angel to me
And in your arms is where I always wanna be
Happy anniversary
Happy anniversary

[Verse 2]
Life has given us
The most amazing
And purest gift of love
On your darkest days
I'll be the light
To help you find your way
And trough the years
We'll keep on going
I'll love you till my final moments
Forever's meant for you and me

[Chorus]
I believe in happily ever after
There's no joy like the sound of your laughter
It seems that god has send me an angel to me
And in your arms is where I always wanna be
Happy anniversary
Happy anniversary
