Medicine

Gab Coelho

I had to go all the way off
I tried to find me cuz I was lost
I tried to find me cuz I was lost

(I was lost)

I don't know where I came from
Need to find myself cuz I have to move on
Find myself cuz I have to move on

(Have to move on)
(Have to move on)

I'll take that remedy
It's all I think about
It's my medicine

It's my medicine
It's my medicine

Cuz that's a piece of me
It's all I think about
It's my medicine

It's my medicine
It's my medicine
It's my medicine
It's my medicine

It's all I think about
It's my medicine

It's my medicine
It's my medicine
It's my medicine

It's all I think about
It's my medicine

It's my medicine

Hey gotta go
XO, so, so
I need a fresh air
I need a change for my soul

Need a change for my soul
Need a change for my soul

Hey gotta go
XO, so, so
I need a fresh air
I need a change for my soul

Need a change for my soul
Need a change for my soul

So fight for the right
Need you by my side
Drink all the liquor
Don't worry tonight

You better do what's right
Can't you see what's left to try?

Dance with the lights
Let your body rise
The good vibes circle
We open tonight

You better do what's right
Can't you see what's left to try?

You better do what's right
Can't you see what's left to try?

(Try, try, try)

You better do what's right
Can't you see what's left to try?

(Left to try)

You better do what's right

Can't you see what's left to try?

(Try, try, try)

You better do what's right
Can't you see what's left to try?

All those things it piss me off
I told myself I am enoguh
I told myself I am enough

(I am enough)
(I am enough)

I don't want to lie again
Even for myself I can't pretend
Even for myself I can't pretend

(I can't pretend)
(I can't pretend)

I'll take that remedy
It's all I think about
It's my medicine

It's my medicine
It's my medicine

Cuz that's a piece of me
It's all I think about
It's my medicine

It's my medicine
It's my medicine

(My medicine)
(My medicine)
(My medicine)
(My medicine)

Hey gotta go
XO, so, so
I need a fresh air
I need a change for my soul

Need a change for my soul

Need a change for my soul

Hey gotta go
XO, so, so
I need a fresh air
I need a change for my soul

Need a change for my soul
Need a change for my soul

So fight for the right
Need you by my side
Drink all the liquor
Don't worry tonight

You better do what's right
Can't you see what's left to try?

Dance with the lights
Let your body rise
The good vibes circle
We open tonight

You better do what's right
Can't you see what's left to try?

You better do what's right
Can't you see what's left to try?

(Left to try)

You better do what's right
Can't you see what's left to try?

(What's left to try)
(What's left to try)
(What's left to try)
(What's left to try)
(What's left to try)
