

# Acid Hologram

## Deftones

In the haze of your light  
We bathe and wane  
You've surrounded  
Our hearts again  
You smother me in shapes  
In a secret praxis  
You've showed me your charms  
And revealed your name  
Blow the clouds  
From your mouth again  
And smother me in shapes  
You'll reveal your secret side  
Your light will fade  
And our hearts will sync  
In time your disguise  
Will shift and reverse  
In the wake of your plume  
We bathe and drink  
You remind me of her again  
Smother me in shapes  
You'll reveal your secret side  
Your light will fade  
And our hearts will sync  
In time your disguise  
Will shift and reverse
