

I'm Not Funny

Lunatics on Pogosticks

You're upset, probably my fault, baby i'm a mess
I didn't meant to make you so that stressed
I was just trying to be funny, honey

I'm a dick, i never meant to make you feel so sick
but all of this bad jokes run throught my lips
Trynna make you laught, babe but just not funny.

Are you crying? I always miss around
Did i bring you down?
Are you crying? I always miss around
Did i bring you down?

You caught, 'cause i said a thing that make you
want to expulse me
And i never meant to make you feel abused
I thought we were joking, just joking honey

Are you crying? I always miss around
Did i bring you down?
Are you crying? I always miss around
Did i bring you down?

I swear that will be the last one
I wont say things that upset you
I never meant to be so lank
I somehow end with all this went

Are you crying? I always miss around
Did i bring you down?
Are you crying? I always miss around
Did i bring you down?

Are you crying? I always miss around
Did i bring you down?
Are you crying? I always miss around
Did i bring you down?
