

Nine Voices (Longwalker) 3:24

Yes

On a beach, North Africa
Nine tribesmen stand alone
Waiting for a distant call
Waiting for the world to answer through the night of a thousand stars
Encircled by the light
They began to sing a new song
Of forces that surround us Nine voices
This dialogue
Nine voices
Singing as one Nine voices
This dialogue
Nine voices When the sun came up they sang
As the perfect calendar says
Each had the power of people
Speaking new languages They gave forgiveness meaning
New ways of letting go
Each child is born for greatness
With forces that surround them This voice
This dialogue
This voice
Singing as one Nine voices
This dialogue
Nine voices
Singing as one His voices
This dialogue
This voice
Singing as one Nine voices
Nine voices
Nine voices
Nine voices
